Gotec Plus Sun LLC

Williamstown, Kentucky 41097

Date: November 28, 2007

Sajjad Quabili, Reviewer

SOURCE ID:	21-081-00014
AGENCY INTEREST:	1500
ACTIVITY:	APE20070002

**SOURCE DESCRIPTION:**

Gotec Plus Sun LLC is located at 107 Industrial Road, Williamstown, Kentucky. The facility manufactures miscellaneous metal parts in the plant. The surface coating operation of this source consists of hand painting lines, dip tank coating machines, rotary spray, tumble spray booths, roller coating machines, and chain-on-edge spray machines. Gotec Plus Sun has applied to the Division to add (16) sixteen paint spray booths and to install a new RTO to the plant.

Potentially, Gotec Plus Sun is a major source under 401 KAR 52:020, Title V permits, for VOC and HAP emissions. The source has voluntarily accepted emission caps for both VOC and HAP to become a conditional major source under 401 KAR 52:030, Federally enforceable permits for non-major sources. The emission caps are as follow:

- Source wide VOC emissions shall be less than or equal to 90 tons per rolling 12-month period.
- Individual HAP emissions shall be less than or equal to 9 tons per rolling 12-month period.
- The permittee shall keep source wide emissions of combined HAPs no greater than 22.5 tons per rolling 12-month period.

**PUBLIC, EPA, AND AFFECTED STATE REVIEW:**

On October 25, 2007, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *The Grant County News* in Williamstown, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA on October 25, 2007 via e-mail. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
